

SBS Nexus Berhad (SBS)

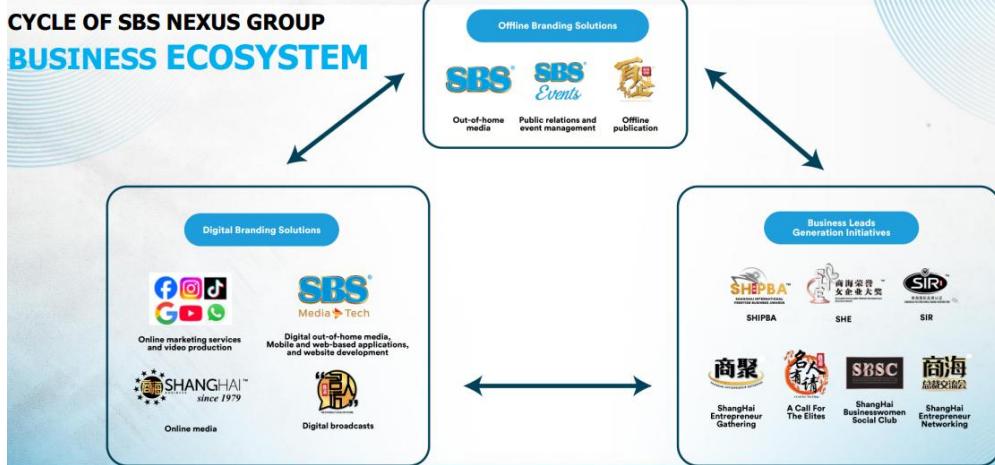

Scaling Brands Successfully

- SBS Nexus Berhad is a Malaysia-based branding and marketing solutions provider offering (i) offline branding solutions, (ii) digital branding solutions and (iii) business awards and networking events. The group's multi-channel ecosystem spans out-of-home media, PR and events, publications, online marketing, digital broadcasts, video production, digital-out-of-home and online media, as well as mobile and web application development, serving entrepreneurs, SMEs and corporates across various stages of the business lifecycle.
- We project 3-year earnings CAGR of 19.6%, with core PATMI expected to reach RM8.8m-RM13.0m over the next three years. This growth is underpinned by (i) recurring income from sustained marketing spend by existing customers, (ii) new customer acquisition following business expansion and relocation to a new HQ, and (iii) deeper penetration into the Malay-speaking SME segment.
- We assign a fair value of RM0.34 per share for SBS, indicating a 36.0% upside from the IPO price of RM0.25. This valuation is based on a PE multiple of 15.0x pegged to FY26f EPS of 2.28 sen.

Investment highlights

One-stop branding and marketing ecosystem. SBS operates an integrated branding and marketing ecosystem, spanning across offline branding, digital branding and business lead-generation initiatives. Its broad service offering enables cross-selling across different channels, allowing SBS to deliver end-to-end branding solutions tailored to businesses at different stages of their growth.

Established ShangHai brand equity with strong SME recognition. SBS's long-standing ShangHai house brand is well-recognised within Malaysia's Mandarin-speaking SME community. This 46-years brand continues to enhance customer trust and creates spillover demand for SBS's wider branding and marketing solutions.

Expansion into the Malay-speaking SME market. The group is targeting the Malay-speaking SME segment through the launch of MyUsahawanMedia, supported by 18 dedicated headcount expansion and targeted marketing initiatives. This strategic expansion is expected to broaden SBS's customer base and address growing demand for brand development, digital visibility and trusted networking platforms within the

Malay-SME community segment.

Strong revenue growth supported by customers' recurring spend and expanding customer base. SBS benefits from its customers' recurring marketing spend as customers typically allocate budgets annually to maintain their brand visibility, particularly in competitive markets where peers' advertising activities drive continued engagement. Meanwhile, the group continues to attract new customers across its service offerings as well. As a result, SBS recorded a two-year revenue CAGR of 60.6%, growing from RM11.6m in FY22 to RM29.9m in FY24.

New headquarter expansion to support business scaling. The group plans to relocate to a larger headquarter with expanded event, meeting, training and production facilities. This will enhance in-house capabilities for large-scale events and digital content creation, with RM7.1m (23.2% of IPO proceeds) allocated for it.

Market share poised for growth. According to the IMR report, even though SBS has a sub-1% market share in both Malaysia's offline and digital branding markets, the group is well-positioned to capture growth from an expanding branding and marketing industry driven by digitalisation, rising SME formation and sustained demand for brand visibility, providing a long runway for SBS's market share expansion.

Business overview

(i) Offline branding solutions (37.3% of FY24 revenue)

This segment encompasses out-of-home media, public relations and event management, as well as offline publications. Revenue is derived from the design, printing, distribution and installation of billboards, banners and bunting, management of advertising spaces, fees for event planning and execution, and the creation and publication of customer features in the *ShangHai* Book of Fame supported by related presentation events.

(ii) Digital branding solutions (57.4% of FY24 revenue)

This segment covers online marketing services, digital broadcasts, video production, digital-out-of-home and online media, as well as mobile and web-based applications and website development. Revenue stems from digital content creation and advertising management, broadcast production and embedded ad placements, bespoke video projects, digital billboard and indoor media airtime sales via Entity T, online display advertising, as well as one-off development fees and recurring maintenance for mobile apps, web-based applications and websites.

(iii) Business awards, recognition and networking events (5.3% of FY24 revenue)

This segment comprises the organisation and hosting of business awards, recognition events and networking sessions, which serve both as revenue-generating platforms and business lead-generation initiatives. These events enable outreach to entrepreneurs, micro-SMEs, SMEs and corporates, strengthening customer acquisition while offering participants enhanced branding and publicity avenues.

Revenue and income highlights. The group reported revenue growth of RM10.0m or 50.3% YoY, increasing from RM19.9m in FY23 to RM29.9m in FY24. This was primarily driven by stronger contributions from both the digital branding solutions and offline branding solutions segments, which rose by RM4.8m or 74.5% and RM7.1m or 70.8%, respectively. These gains were partially offset by a decline in the business leads generation initiatives segment, which fell from RM3.5m in FY23 to RM1.6m in FY24. In line with higher revenue, the group recorded a higher PAT of RM7.6m in FY24, up RM2.0m or 36.7% from RM5.6m in FY23.

For FPE25, the group recorded revenue growth of RM9.0m or 70.9% YoY, rising from RM12.7m in FPE24 to RM21.8m in FPE25. PAT attributable to shareholders also increased by RM1.3m or 38.8% YoY to RM4.7m, compared with RM3.4m in FPE24. However, PAT margin declined from 26.6% in FPE24 to 21.6% in FPE25 due to talent recruitment challenges, which led to higher outsourcing costs and margin compression.

Balance sheet. Total assets increased from RM20.0m in FY24 to RM27.3m in FPE25, mainly driven by higher trade and other receivables, as well as increased cash and bank balances. Total liabilities rose from RM11.4m to RM13.9m over the same period, largely due to higher borrowings and tax payable. Correspondingly, total equity expanded from RM8.6m to RM13.3m, supported by retained earnings growth. The group was in a low net gearing position of 0.02x prior to listing.

Cash flow. Despite higher PBT, net cash from operating activities declined from RM9.4m in FY23 to RM5.1m in FY24. Cash flow from investing activities improved significantly, swinging from a marginal net inflow of RM0.1m in FY23 to a net inflow of RM2.2m in FY24, mainly due to proceeds from the disposal of an investment property and the absence of intangible asset acquisitions. Cash flow from financing activities recorded a higher outflow of RM7.2m in FY24 compared with RM7.0m in FY23, following increased dividend payouts. For FPE25, the group continued to generate healthy cash flows, with a RM5.7m cash and cash equivalents at end of the period.

Earnings forecasts. Moving forward, we forecast a three-year earnings CAGR of 19.6%, with core PATMI projected to reach RM8.8m, RM11.2m and RM13.0m over the next three years. Earnings growth is underpinned by (i) recurring income from sustained marketing spend by existing customers, (ii) new customer acquisition

Valuations

We assign a fair value of RM0.34 per share for SBS, based on a P/E ratio of 15x pegged to FY26F EPS of 2.28 sen. Even though the average historical and forward P/E multiples of its peers are trading between 21.7x and 23.9x, we believe the ascribed P/E is fair, reflecting SBS's smaller market capitalisation.

Investment risks

Brand reputation and perception risk. The group's business performance is closely linked to the strength and reputation of its house brand, *ShangHai*, which underpins its publications, digital broadcasts and business events. Any negative publicity, adverse social media coverage, service quality issues, or misconduct by employees or customers could erode brand trust, weaken customer demand, and impair the group's ability to cross-sell its broader branding and marketing services.

Lack of long-term customer contracts. The group does not typically enter into long-term contracts, with services purchased on an as-needed or project basis. This

exposes earnings to fluctuations in customer demand, project timing and billing milestones, potentially resulting in volatility in revenue, profitability and operating cash flow.

Reliance on third-party suppliers and service providers. The group depends on external vendors for printing, event execution, media platforms, production crews and other specialised services. Cost increases, supply disruptions or the inability to secure alternative providers at competitive prices may pressure margins, delay project delivery and negatively impact service quality and customer satisfaction.

Dependence on key management and talent. The continued success and expansion of the group rely heavily on its Executive Directors and senior management team. The loss of key personnel without timely and suitable replacements may disrupt operations, weaken strategic execution and adversely affect business performance.

Environmental, Social and Governance (ESG) Practices

Environmental:

- **Promotes energy conservation** in the workplace through the use of energy-efficient electrical appliances and LED lighting, while encouraging employees to switch off lights, air conditioning and equipment when not in use.
- **To reduce paper consumption**, the group is progressively digitalising its operations and fostering responsible paper usage by minimising printing, reusing paper and recycling where possible.
- **Prioritises engaging printer service providers that practise sustainable paper sourcing**, adopt eco-friendly production processes and comply with relevant environmental laws through a pre-qualification assessment process aligned with its sustainability objectives.

Social:

- **Places strong emphasis on workplace health and safety** through the implementation of relevant policies to ensure a safe and conducive environment.
- **Invests in continuous training and development programmes** to enhance employees' skills, leadership capabilities and career progression, with annual training plans proposed by each head of department to address specific operational needs.
- **Committed to equal opportunity** and fostering a diverse and inclusive workplace, recognising that diversity enhances creativity, innovation and collaboration.

Governance:

- **Implement Code of Conduct and Business Ethics Policy** to outline procedures for managing conflicts of interest, preventing money laundering, combating bribery and corruption, and avoiding insider trading.
- **Anti-Bribery and Corruption Policy** is in place to ensure compliance with applicable laws and regulations, including the Malaysian Anti-Corruption Commission Act 2009.
- **Implements a Whistleblowing Policy** to promote fairness, transparency and ethical business practices.
- **Personal Data Protection Act Policy** provides guidance on the processing of personal data for commercial and employment purposes in compliance with the Personal Data Protection Act 2010.
